

I, as a user, will use the login in order to log in for the first time, followed by registration at any time.

As a user, you will use a new memo to write notes and diaries

As a user, you will use the editing feature to modify the previous notes in terms of..

[Add..Delete..Change the background..Add images..etc.]

As an admin, I use the registration to enter the program, enter the database, modify and accept approvals.
